

NO EXPERIENCE NEEDED! The **Bindery Worker** position is an on-your-feet type of job. It can be physically demanding and require you to reach, bend, twist and lift. You may be sore after your first few shifts but on the bright side, you can skip the gym those days! If you like a little variety, this job is for you – as jobs and machine assignments will vary depending on the day-to-day workload. However, your primary responsibilities most days will be to lift stacks of our catalogs, align their edges together (called jogging) and place them in a feeder pocket on the machine where they are then stapled – or in printing terms, “stitched” – together. In order to provide you with the best possible breadth of experience during your time as a **Bindery Worker**, you will also rotate to different areas of the machine throughout your shift. Come be a part of the A-team at **Arandell Corporation**, North America's premier catalog printer! Located in Menomonee Falls.
